

Dust mopping for dust and dirt particles increases cleanliness.

## Dust Mop

### MICROFIBRE FLAT-MOP WITH FRINGE

Dust mopping first for dust and small dirt particles saves time while increasing the level of cleanliness. Our new Silver technology provides an added level of protection. Silver is known to provide a naturally occurring antibacterial property when single-cell organisms come in contact with the ions on a biological level. The silver impregnated fibres reduce bacterial populations such as *Staphylococcus aureus* by as much as 99.9% when the mop is laundered (10 minutes to 60 minutes of dwell time).

Silver technology is not dangerous to the environment, animals or humans and lasts the life of the product.

### WHY YOU NEED THIS:

- The AG Silver technology found in this dust mop has antibacterial properties that add an extra level of protection against cross-contamination when laundered.
- Microfibre products can be used as part of a green cleaning program.
- Dust fringe helps trap larger dirt particles such as hair leaving the interior microfibre pile free to clean surface dust.

### APPLY DUST FLAT-MOP ON DRY SURFACES

This two phase dust mop has a loop-twist microfibre fringe for catching larger debris and an inner cut pile microfibre for deep removal of dust on a smooth dry surface. The fibres create a static charge and capture dust by electro-mechanical means.

#### MOISTURE

dry    damp    wet

Amount of moisture in the applicator required to effectively clean the surface.

#### SURFACE

smooth    textured

Smooth - Uniform surfaces or lower levels of dirt.  
Textured - Grouted tile or surfaces with a high level of dirt.

#### yarn technical data

pile	100% poly/microfibre (1.0 denier)
fringe	70% poly/microfibre (0.5 denier), 25% polyester (3.0 denier), 5% viscose rayon
insert	high density cut foam
backing	100% Z-Velcro™, polyester
piping	poly tape
laundry	500 cycles @ 60°C 200 cycles w/bleach >10.7 pH.

product	size [cm]	material	pack
60330	46	outer fringe: poly/microfibre and synthetic blend, twist loop inner pile: poly/microfibre cut end	6
60331	60		6
60333	130		6
